

## WHAT IS CIVIC TECH?

Civic tech refers to solutions that involve information and communication technologies to benefit citizens.

## WHO ARE WE?

We are academics researching and facilitating civic tech processes and technologies.

## OUR VISION

We envision taking an interdisciplinary, cross-sectoral and collaborative approach to tackling civic challenges.

## OUR MISSIONS

1. Generate the highest quality research about Civic Technology.
2. Strengthen the civic core of public-sector, private-sector actors and citizens.
3. Design critically processes and technologies for the public good.

## OUR TEAM

CivicTech Lab at National University of Singapore is a research hub.

Our team includes social scientists, computer scientists, and digital cultural analysts.

## OUR HISTORY

The CivicTech Lab, formerly known as the Media Psychology Lab, was established in 2008 as a central location for research projects on civic engagement and information communication technology.

## OUR FOCUS

Civic Tech in Asia, Citizen Science, Online Deliberation, Digital Culture
