

Welcome to Kiwi TCMS

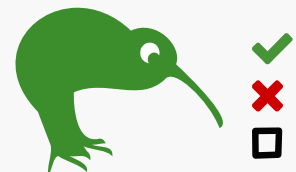

If it's not in TCMS then we don't test it

Leading open source test management

Kiwi TCMS is the leading open source test management system for both manual and automated testing   

Our mission is to transform the testing process by making it more organized, transparent & accountable for everyone on your team; to improve engineering productivity and participation in testing.

TE-12023 Verify a downloaded ISO
linux

👍 ⌚ P1 🖱️ --default-- 👤 atodorov 🔍 - ? IDLE

Scenario: verify downloaded ISO file

Given you download an ISO, download the accompanying `SHA512SUMS` and `SHA512SUMS.sign` files

When verifying the ISO

Then it should match the `SHA512SUMS` and `SHA512SUMS.sign` files

Actions:

1. `sha512sum -c SHA512SUMS --ignore-missing`
2. `gpg --keyserver keyring.debian.org --recv 6294BE9B`
3. `gpg --verify SHA512SUMS.sign`

Expected results:

deleted to demonstrate history tracking

Notes:

Run Date: - **Build:** 2020-09-12 **Text version:** 24334
